September 14, 2018

Dear Incumbent/Candidate:

We are providers of affordable housing and housing services in the Commonwealth. We rely on federal funding through HUD, USDA-RD, Treasury and other agencies to support the work that we do every day. Please help us to help families and individuals in Virginia have access to quality, affordable housing. You can do this by ensuring that the federal housing programs that we work with have stable, adequate budgets.

The housing needs in the Commonwealth are diverse and widespread. From homelessness to young families unable to buy their first home; from rents rising faster than incomes to seniors struggling to stay in a home that no longer meets their changing needs. We address these critical housing issues and many others in every corner of Virginia. We hope we can rely on you to help us to continue to meet this challenge by fighting to maintain essential federal funding. Please reach out to us if you would like a tour and the opportunity to meet some of the people we assist as well as our committed staff. Every resident of the Commonwealth should have a decent place to call home. Help us reach that goal.
